Support every student's path to graduation

Learn how Panorama Pathways automates transcript audits, flags scheduling errors, and provides actionable insights to keep students on track for graduation and post-secondary success.

Watch video

Improve graduation and CTE completion rates

Support the whole student with automated tracking, auditing, and reporting for graduation, CTE, and tailored student plans.

Maximize staff efficiency

Spend less time on administrative tasks that keep counselors from directly supporting students. Easily review and resolve issues on transcripts, schedules, assessments, and credits. Quickly track graduation requirements, manage course progressions, and assign personalized plans.

"The power of this platform is that instead of hand-by-hand looking, we're able to much more quickly and efficiently address those transcripts. So it really is an efficiency booster for us in the school district."

Richard Carranza
Former Superintendent
Houston ISD (TX)

Minimize the risk of errors

Catch errors before a state or district audit does. With daily scans of student records, you'll identify potential roadblocks earlier and faster. Our world-class team will configure Panorama Pathways to meet your district and state requirements for graduation, credits, and course progressions.

440K

Transcript and Scheduling Errors Identified

In 2023, Panorama Pathways identified 440,000 issues to help counselors keep their seniors on

counselors keep their seniors on track for graduation.

Make decisions with actionable data

Monitor graduation readiness with powerful reports at the district, school, and student levels. Filter data by counselor, ELL status, and more to gain deeper insights and identify trends. With insights at your fingertips, drive strategic planning to improve graduation rates and student outcomes.

"(Panorama) Pathways is organized. Everything is clear and accessible. There are no questions to be asked, and we can feel confident in its accuracy."

Kristy Newitt
Counseling Coordinator
Cumberland County Schools (NC)

Viewing 2,470 Students

15.3% of students are off track with on-time graduation

A student's status is based on progress made towards their graduation plan requirements.

Students on track 72.1% (1,782)
Students off track 15.3% (378)

Popular features

System integrations

Get up-to-date transcript, schedule, and assessment data through nightly syncs with 20+ student information systems (SIS) and key assessments.

District home page

Monitor students' graduation progress with district-wide reports detailing on-time graduation rates and scheduling errors.

School home page

Gain a complete view of your high school's on-time graduation rates, scheduling errors, and flagged errors for each student in your school.

Student profiles

Guide each student's journey with insights into career and technical education paths, distinctions, endorsements, and context around flagged errors.

Automated error reporting

Effortlessly detect, aggregate, and resolve transcript errors. Support off-track students in real time with reports updated daily.

Configured to your requirements

Our team helps you meet district and state requirements by mapping pathways, designing course progressions, defining flags, and more.

## What Panorama partners are saying

Cumberland County Schools	Houston ISD

"(Panorama) Pathways is taking that human transcript auditing need and putting it into software to double-check for you. That was our biggest need... software to help our counselors identify the mistakes that they kept missing."

Kristy Newitt
Counseling Coordinator, Cumberland County Schools (NC)
